SUBJECT: Compact Flanges

Dear Mr. Webjorn:

Please be advised that the National Board of Boiler and Pressure Vessel Inspectors does not review and comment on engineering design.

In order for this flange design to be acceptable to an Authorized Inspector, the flanged connection would be required to be acceptable to the American Society of Mechanical Engineers. We suggest you forward these documents to the Secretary, Mr. G. M. Eisenberg, of the ASME Boiler and Pressure Vessel Committee for evaluation by the appropriate committee.

Very truly yours,

A handwritten signature in cursive script that reads "S. F. Harrison".

S. F. Harrison
Executive Director
